Transforming the skill landscape

Three options to study are,

- **Regular Mode:** Students coming under this keep to study while staying on the campus of the university.

- **Private Mode:** This is called self-study in this, the student has the opportunity to study while staying at home. Under this, if the student wants to learn something by going to the centre, then he can do it. The centre operator can give coaching by taking his coaching charge.

- **Online Mode:** Under this mode, the entire education of the student is imparted online through the portal.

*Under this mode, the entire education of the student is imparted online through the portal.

Center operator: Abhilash Kumar Pathak

Our Courses

DCA (Diploma in Computer Application)

The DCA (Diploma in Computer Applications) course provided by RSIT Institute offers a comprehensive curriculum designed to impart essential computer skills and knowledge. This course covers fundamental topics such as computer basics, programming, database management, and internet applications, equipping students with the technical proficiency needed for various IT roles. We ensure a practical learning approach, preparing students for successful careers in the rapidly evolving digital landscape.

BCA (Bachelor of Computer Applications)

The BCA (Bachelor of Computer Applications) course offered by RSIT Institute is a strong program aimed at providing in-depth knowledge of computer science and its applications. This undergraduate course covers key areas such as software development, programming languages, database management, and web technologies. With a blend of theoretical and practical learning, RSIT Institute prepares students for advanced studies or careers in the IT industry, fostering both technical skills and professional growth.
